INTRODUCTION

Salvation and Rehabilitation Organization (S.R.O) is a non-profit, non-governmental organization which was established in 2001. The organization is the outcome of the need for infrastructure in war-torn and immobile areas of Afghanistan to help develop a better sustainable Life and future for those affected by the calamities of war in Afghanistan.

“MY homeland I will build you, eventually I will build you “ (a poem by Farhad Darya) our vision was and still is to make an organization which can effectively build and develop communities. Our core values are based upon patriotism, dignity and helping those who are in need of those who can give them a helping hand.

SRO and the Team of SRO are from a unique set of people who have shown their valour and dedication to their work. Our work ethic is putting others first to ensure the quality of work which has been proven multiple times by the awards given to SRO and SRO team from the period of 2001-2007.

After 2007, the SRO team concentrated all its activities in the construction sector under the name of AHDAAS, and in the year (2024) again, SRO with more experience and more knowledge of different areas of Afghanistan has extended and restarted its certification.

ABOUT US

SRO is an independent - non-profit - non-governmental - and non-political legal entity that works to carry out voluntary activities with a cultural-political-social-religious humanitarian orientation and based on legality and written statutes and in compliance with the relevant laws of the country.

Our work ethic is strongly based on the moral values of religion and culture of our country

We aim to make afghanistan a better place for those who have had enough of war . If they werent given a chance at life perhaps their families can have the chance to have a better future .

Our objectives

build desperately needed infrastructure for communities .

Create jobs and work opportunities to help betterment of communities financially.

Promote efforts aimed at ensuring peace and harmony in the targeted communities.

Improve and promote the need for education in communities which do not have access to resources of education.

Improving and promoting health and sanitation conditions like creating a as sustainable, replicable and promotable healthcare system that would prevent the spread of diseases in communities which do not have infrastructure.

OUR MISSION

We are continuously working to provide the best service for Afghans. Mostly women. Our greatest mission is to impact the lives of unfortunate. We believe our mission as a professional and responsible NGO is to use our experience and skilled staff to provide the best service for the project. women and children are mostly exposed to poverty in our society. our NGO provides plans for sustainable change in their lives to serve as a very safe working environment for Afghan women. We want to bring hope to the pupils of Afghanistan to bring a strong management of available resources. We are working to change Afghanistan for all its inhabitants. Our Rich experience proves that we have paid for the trust. Our intelligent Partners Have worked hard day and night to help those in need.

Our future plans for women and children.

The team of SRO believes women are the pillars of a country's economy. we can see this in Western countries they have a 50% direct impact on the labor power of a country's production line. The team of SRO has always worked with women, providing them with jobs which are suitable for them and do not go against the laws of Afghanistan. women have always been seen as objects to the uneducated people of Afghanistan. We believe if we could come up with funds, we could create a safe work environment consisting of only women employees who can take care of women-related problems. the women team of SRO-NGO are from a unique set of people who have showed their dedication to work and valor in work field. The women team of SRO are very well educated and perfected their English literature, Turkish and Afghanistan's local languages. The team of SRO can use these skills to create a safe work environment for women all over Afghanistan.

Afghanistan needs a generation who are very well educated. Children do not need work opportunities what they need is good education and materials for education so if we provide school, books, chairs, bags and qualified teachers we can greatly impact the lives of children who live in poverty and cannot attend school. Education should be free in a country Such as Afghanistan. unfortunately, if we have public schools or madrasas, we lack the basic needs for children's education. The team of SRO can provide a distribution of needed infrastructure for children to improve their way of living.

OUR EXPERIENCE

The Team of S.R.O has worked with many international donors for 7 years from (2001-2007) in different sectors such as (immigrants- drinking water- education- health services - winter aid distribution program - food distribution) and other sectors. the team of SRO has been doing its activities for about 16 years from (2007-2024) focusing on construction projects and successfully completed many projects. By using the brightest minds of engineering in Afghanistan we have made many impossible seemed projects possible. which has earned us a personal reputation among colleagues and partners. with 22+years of experience in the field of construction, we are sure we are the Best in our job.

Our work isn't only based on construction we have been very successful in Raising Funds for those who been affected from earthquakes, floods, Drought and poverty.

DURING THE EARTHQUAKES THAT HIT HERAT CITY, AFGHANISTAN IN OCTOBER 2023. THE TEAM OF SRO WAS VERY QUICK TO RAISE A FUND FOR THOSE AFFECTED IN THE HARSH EARTHQUAKES. DISTRIBUTING WATERPROOF TENTS, BLANKETS AND FOOD FOR THOSE WHO LIVING IN THE STREETS OF THE FEAR OF EARTHQUAKES WITH TURKISH AFAD AND PRIVATE SECTOR OF AFGHANISTAN.

THE TEAM OF SRO BROUGHT IN THE VERY SUCCESSFUL AFGHAN BUSSINESSMAN CEO OF AZIZI GROUP MERWAIS AZIZI TO HERAT CITY AND RAISE A FUND FOR 200 MILLION AFS TO BUILD 300 HOMES FOR THE PEOPLE WHO LOST THEIR HOME IN THE OCTOBER 2023 EARTHQUAKES IN ZINDAJAN DISTRICT IN HERAT CITY.

THE TEAM OF SRO HOLDS A VERY GREAT REPUTATION NOT ONLY LOCALLY BUT WITH INTERNATIONAL FRIENDS AND PARTNERS ASWELL. WE HAVE ALWAYS WORKED TO PROVIDE AIDS FOR THOSE IN NEED IN AFGHANISTAN FROM 2001-2024 AND GODWILLING IT WILL MOVE ON TO THE NEXT GENERATION OF THE SRO TEAM.

A legacy built on hard work.

During the years 2003-2004, we were given the contract to build a bridge overlooking the city Bala morghab, Badghis. we were halfway through the building of the bridge when suddenly a nut bolt broke and the half-built Bridge fell into the river below. it was then that some of our colleagues Lost all hope and couldn't bear the burden of this work and decided to leave the area. they left but we stayed there. finally, after some replanning, we eventually hooked the broken half to a crane brought it out of the water and continued to build the bridge. after a few months, the bridge was built and the project became one of the best projects of the year in UNOPS. when we say we are an organization looking to help others we mean it and luckily it has been proven and awarded for multiple times. And numerous other projects that the team of SRO completed were as difficult if not easier as mentioned above. The team of SRO has always preferred hardship to ease to be sure of the quality of work and that not a penny of the investments done be going to waste.

Some of our past works.

CONSTRUCTION OF KARTAH SCHOOL IN HERAT PROVINCE WHICH IS BUILT FOR 12 CLASSES, 6 TOILETS AND REPAIRING OF 10 EXSITING CLASSES. THE SCHOOL WAS BUILT WITH THE HELP OF HAID, ORGANIZATION. THIS SCHOOL BENEFITED 1200 STUDENTS EACH YEAR AND STANDS TO HELP MORE STUDENTS EVERYDAY

REHABILITATION OF ROAD BETWEEN SHAHRAK DISTRICT AND CHAGCHERAN CITY IN GHOOR PROVINCE IN 2003 . THIS PROJECT REHABILITATION OF 130 KM OF ROAD AND 47 BRIDGES BETWEEN THE 2 DISTRICTS AND CREATED JOBS FOR 50000 PEOPLE OF THAT AREA.

THE SHELTER PROGRAM IN KOSHK RABAT SANGI, KOSHK E KOHNA, GOLRAAN , ENJIL DISTRICTS OF HERAT CITY IN TOTAL 1891 FAMILIES OF RETURNEE, IDP, WIDOWS, ELDER AND DISABLED OF WAR IN 161 VILLAGES OF HERAT PROVINCE . THESE FAMILIES RECEIVED 100\$ EACH ON TOP OF CONSTRUCTION MATERIAL FOR THEIR HOMES WITH THE HELP OF UNHCR.MORR AND HARDWORKING TEAM OF SRO.

INNOVATIONS OUR QUALITIES

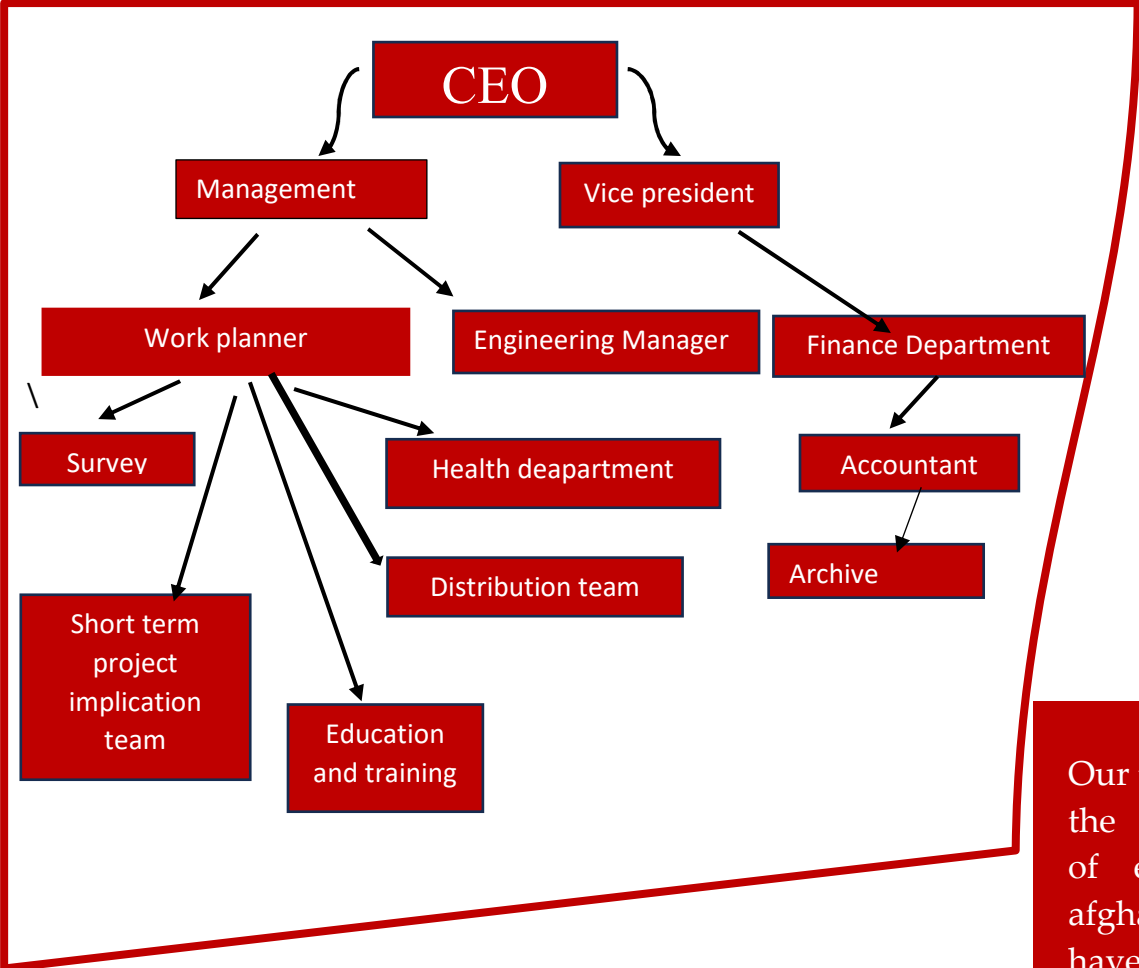

Our quality is we introduced Engineers who are idols and have more than Decades of experience. We can empower change and strongly provide the best outcomes. We have a rich experience of construction in many provinces of Afghanistan and still, they are considered as a unique piece of art and hard-working. We have won many awards for providing quality that satisfied our Partners. the international partners that supported and funded our projects believe that we are the best choice there and we proved our honesty. we have been a successful NGO organization because we learned a lot of experience and adapted to tons of changes. we improve continuously and we ensure our quality. Our reputation is very precious and important to us. We put our quality first and we do anything to ensure the best quality ever.

We pursue our missions with a strong dedication to update our system from time to time our society asks for creative ideas and new improvement plans. updating our system can help us meet new opportunities. We have learned from our 2 decades of experience that Innovation is key to success. So if we provide a new system plus experienced Engineers that will lead us to our dream becoming reality. Society has faced many problems and people have been accepting and expecting new ideas and Innovation

OUR TEAM

we have always updated our system by attracting new minds and talents to our team and providing the newest and best equipment for work.

Our team is based of the greatest minds of engineering of afghanistan who have had a ton of experience in the field of engineering. Putting these together with the right use of these talents im sure we can make

TRUST BUILDS FUTURES OUR PARTNERS AND CLIENTS.

We have worked numerous projects with Unops in Kabul, Kandahar, Balkh, and Herat from 2007-2024

We have worked numerous projects with the local government of Afghanistan MOPB.

Worked with World Food Program in Kabul, Nengahar, Kandahar, Pakhtiya

Built Schools, roads, hospitals, water wells, plantation watering system from 2001-2014
